# Weather

A MONTHLY MAGAZINE FOR ALL INTERESTED IN METEOROLOGY

Vol. 26

1971

Published by the

ROYAL METEOROLOGICAL SOCIETY

Cromwell House, High Street, Bracknell, Berks. RG12 1DP

# CONTENTS

## COVER PHOTOGRAPHS

| | |
|---|---|
| January | Wave clouds over Les Aiguilles du Midi, Chamonix, France, P. R. S. SALTER |
| February | A Berkshire lane – after freezing fog in November 1962, J. R. MILFORD |
| March | Cumulonimbus and anvil over the lower Ribble valley, 15 February 1960, P. L. MORTIMER |
| April | Shadow cast by a contrail. Looking east from Sark, Channel Islands, G. MARTIN |
| May | Hailstone which fell at Sydney on 3 January 1971, by courtesy of CSIRO, Australia |
| June | Air photograph taken at Jan Mayen on 21 September 1970, R. C. ULRICHSEN |
| July | A brightness-contoured photograph of hurricane *Camille*, 16 August 1969 |
| August | Destruction of leaf tissue by freezing and desiccation, F. H. W. GREEN |
| September | Wave clouds over South Wales, June 1967, F. R. LA FORTE |
| October | Nant Gwynant, Caernarvonshire, E. W. HUGHES |
| November | Huge drifts blocking the Barnard Castle - Kirkby Stephen line, by courtesy of British Rail |
| December | Morning mist south of the Hog's Back, Surrey, 22 November 1970, R. SHORTER |

| | *Pages* | | *Pages* |
|---|---|---|---|
| JANUARY | 1–43 | JULY | 277–317 |
| FEBRUARY | 45–84 | AUGUST | 319–364 |
| MARCH | 87–133 | SEPTEMBER | 365–409 |
| APRIL | 135–183 | OCTOBER | 411–455 |
| MAY | 185–228 | NOVEMBER | 457–503 |
| JUNE | 229–276 | DECEMBER | 505–550 |

# INDEX

*Titles in italics denote book reviews*

Authors' name in CAPITALS

*denotes Letters to the Editor

African floods, September 1969, North*, 131
Air motion near fronts, Radar measurements of, 293, 320
Air temperatures in Britain, Recent trends in solar radiation, maximum black-bulb and, 164
Altocumulus over Middlesex – photograph – A. W. CULMAN, 165
Andes glow, The*, 39
Andes lights*, 182
Anemometer and wind vane suitable for schools, An electrical, 118
Anglo-Saxon month names, The meteorology of, 536
Antarctica, Mother-of-pearl clouds in, 7
Apollo 12, Weather at the launch of, 19
Approaching shower near Shannon – photograph – M. D'ALLENGER, 256
Arctic regions, Multiple reflection in, 157
Atlantic, A comparison of depressions over Europe and the north-east, 210
Atmosphere, Quasi-biennial oscillations in the, 69
AUER, A. H. Jr., Some large snowflakes, 121
Aurorae in northern England, Recent, Readers' Forum, 176
Autumn of 1969, The mini*, 84

Barbados, Coastal evaporation within the North-East Trades: An example from, 372
BARRY, R. G. and R. J. CHORLEY, *Atmosphere, weather and climate*, 405
BBC weather broadcasts*, 40, 181
BERSON, F. A. and K. G. SIMPSON, Radar line echoes and bird movements, 23
Biennial oscillations and solar cycles, AD 1490–1970, 201
Biennial oscillations in the atmosphere, Quasi–, 69
BIGG, E. K., Stratospheric pollution and volcanic eruptions, 13
BIGG, E. K. and R. T. MEADE, High-level stratocumulus clouds, 55
Bird movements, Radar line echoes and, 23
BIRSE, E. L., F. T. DRY and L. ROBERTSON, *Assessment of climatic conditions in Scotland*, 449
Black-bulb and air temperatures in Britain, Recent trends in solar radiation, maximum, 164
Black-bulb *in vacuo* readings*, 275
' Black-bulb-in-vacuo ' readings, Decline of*, 225
BLOWERS, K., Weather forecasts by Radio*, 81
BOSART, L. F., Weather at the launch of Apollo 12, 19
BOTLEY, CICELY M., Andes lights*, 182
————, Halo of 22 August 1970*, 407
————, The Green ray, 354
BRADBURY, T. A. M., Satellite picture of unusually extensive wave clouds, 341
BRESCOE, C. E., BBC weather broadcasts*, 181

Brinkmann, W. A. R., What is a foehn?, 230
Britain, The mountain snows of, 192
British Rail, Wintry prospects for, 472
Brittany, A possible sea breeze effect in, 217
Browning, K. A., Radar measurements of air motion near fronts, 293, 320
Burch, L., Halo display, 22 August 1970*, 80
————, Thunderstorm in June 1970*, 273

Canadian contributions, Meteorological instruments:, 524
Canovan, R. A., Wintry prospects for British Rail, 472
Carte, A. E., Replication of hailstones, 289
Catchpole, A. J. W., and D. W. Moodie, Multiple reflection in arctic regions, 157
' Centres of action ', Changes in position and intensity of major northern hemisphere, 268
Chinook case, An unusual, 241
Chorley, R. J. and R. G. Barry, *Atmosphere, weather and climate*, 405
Chuter, I. H., An unusual thundery spell over Scotland, 381
Cirrus bands, Stereo-photogrammetry of, 140
Clarke, P. C., Climatic trends and glaciers*, 226
————, Snow accompanied by thunder*, 180
————, Two snowstorms in a day, 122
Climate, Possible effects of human activity on the world, 251
Climatic change*, 80
Climatic periodicities*, 41
Climatic review of the 1960's*, 39
Climatic trends and glaciers*, 226
Cloud photographs, A first step towards rainfall estimation from satellite, 279
Clouds, Satellite picture of unusually extensive wave, 341
Cloud studies, The importance of photography in the development of, 100
Clouds in Antarctica, Mother-of-pearl, 7
Coastal evaporation within the North-East Trades: An example from Barbados, 372
Cold front seen by radar, A double, 308
Cold nights*, 81
Cole, F. W., *Introduction to meteorology*, 177
Collie, J. and V. Simpson, Field study courses in 1970: Mathematics and physics in the open air: 29 July – 5 August, 34
Collis, R. T. H., The sonic bang*, 40
Contrail distorted by wind shear – photograph – D. P. Hughes, 338
Cumulonimbus over Mt. Kenya – photograph – M. N. D. B. Yeates, 255
Cyclones, Unusual tropical*, 453

Daily areal mean rainfall, Accuracy of estimates of, 366
Darlington, A., Some enchanted evening, 97
Davis, N. E., The summer of 1971*, 361
Day-of-the-week variation in weather, 386
Deakin, Annette and Anne Wheldon, Physics and mathematics in the open air: 28 July – 4 August, Field study courses in 1971, 547
Dean, D. T. J., High level stratocumulus clouds*, 316
Depressions over Europe and the north-east Atlantic, A comparison of, 210
Dines, J. S., Weather forecasts in error*, 273
Dodds, I., A comparison of depressions over Europe and the north-east Atlantic, 210
Douglas, C. K. M., Visibility across Lyme Bay*, 312
Dust devil systems, 247

Early warm spells since 1957, 46
Eaton, K. J., Tornadoes in south-east England, 25 January 1971, 344
Economic response of weather information, Some attempts to estimate the, 60
Electrical anemometer and wind vane suitable for schools, 118
Electrical effect on Crib Goch, Snowdonia, An*, 79
English winters since 1950, 445
Eruption in Jan Mayen, September 1970, Volcanic, 263
Europe and the north-east Atlantic, A comparison of depressions over, 210
European weather events in 1970, Exceptional, 499
Evaporation pan with wire netting, The effects of covering an*, 42
Evaporation pan with wire netting, Further effects of covering an*, 453
Evaporation within the North-East Trades: An example from Barbados, 372
Evening, Some enchanted, 97

Fallstreaks – photographs – K. G. Baker, 166; J. N. Ricketts, 166
Felice, P. De, and J. Gasne-Tabbagh, A possible sea breeze effect in Brittany, 217
Fergusson, P., A sea breeze at Harrogate, 125
Field study courses in 1970: Mathematics and physics in the open air: 29 July–5 August, 34
Field study courses in 1970: Mountain weather: 26 August–2 September, 35
Field study courses in 1970: Weather and bird movement: 16–23 September, 36
Finch, C. R., High level stratocumulus*, 361
————, The changing face of January in south-east England, 2
————, Weather broadcasts on local radio*, 274
Foehn? What is a, 230*, 452*, 548*
Fog on the west coast of Wales, A sudden onset of sea, 310
Fog top, Wave in a, 59

Foggitt, W. Recent Aurorae in northern England, Readers' Forum, 176
————, Recent weather extremes and sunspot cycles, Readers' Forum, 129
————, Extracts from a North Yorkshire weather diary, 516
Forecasts in error, Weather*, 273
Forsman, Arne (Ed.), *Nordic hydrology*, 38
Freeman, M. H., BBC weather broadcasts*, 40
Front seen by radar, a double cold, 308
Front in South Africa, An exceptionally late spring cold, 506
Fronts, Radar measurements of air motion near, 293, 320

Garratt, J. R., BBC weather broadcasts*, 40
